

## **JAMNA VIDYAPEETH – HOMEWORK POLICY**

### **1. Balanced and Student-Friendly Homework**

The school believes that homework should be meaningful and balanced. Students must not feel burdened; assignments should help them revise and reinforce concepts while allowing sufficient time for family, rest, and other activities.

### **2. Balanced Division of Written Work and Learning Tasks**

Teachers will ensure an appropriate balance between written work and learning/revision tasks. Students—especially those in senior classes—should receive opportunities for self-study, concept revision, and independent practice without excessive workload.

### **3. Structured Homework Schedule**

The school has prepared a clear time schedule and fixed days for assigning homework across all grades. All teachers are expected to follow this schedule strictly to maintain uniformity and prevent academic overload. Any deviation from the schedule should be strictly avoided.

### **4. Responsibility and Accountability**

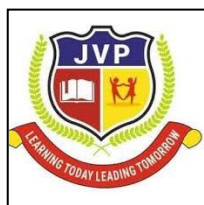

- Teachers must plan purposeful homework aligned with this policy.
- Students are encouraged to complete assignments regularly and ask for support whenever needed.
- Parents should offer guidance and a supportive home environment without completing the work on behalf of the child.

### **5. Review and Continuous Improvement**

The effectiveness of the Homework Policy will be reviewed periodically, and changes will be made based on collective feedback from teachers, students, and parents.

### HOMEWORK GUIDELINES

1. If homework is assigned in the form of worksheets, it must be approved and submitted to the Exam Cell at least one week in advance.
2. All homework must be recorded in the student's diary on the same day it is assigned.
3. Homework correction should be done as per the task allotted and should not be delayed until the completion of the entire chapter.
4. The quantity of homework must align with the time allocated for the subject. It may slightly exceed the allotted time when required, but should not be less than what is necessary for meaningful practice.
5. Both teachers and students must strictly follow the homework schedule so that academic workload remains balanced and does not create any undue burden on either side.
